

TIP

Talent Identification Program

I selected competent, experienced people who will be members. I will keep constantly and continuously, being present and actively participating in initiatives of the Academy. The ISM International Scouting Center has operational headquarters in Perugia. It has latest generation soccer fields; it is supported and have collaboration with the University for Foreigners of Perugia and the University of Perugia for the classroom. It has a boarding school for underage students, university college for adults, private accommodation and participating hotels for those staying for short periods. It can accommodate up to 200 students, with a least one technical trainer every 15 students.

Talent Identification Program

TIP / ANNUAL COURSE

The Talent Identification Program/ Annual Course has been founded with the purpose to identify young talents with superior technical and tactical skills, guiding them towards a possible contract with the Teams.

COMPARING WITH PROFESSIONALS

The aim of the Talent Identification Program / Annual Course is to give a chance to all the players to be seen and evaluated by coaches and agents of professional and not professional clubs, and if there is the possibility of be members of a club. Participating in the programs of our football academy, players are exposed to high-level football technical training designed to be intense, educational and progressive.

Players attend two hours of training courses structured daily (Monday to Friday) and every week organized a friendly match. In the football training sessions of our Academy, we are careful and well being and physical condition, but the main priority is the individual ball skills and development / technical improvement.

During the course of the Talent Identification Program", our Academy organizes different tests, depending on the level of each player.

CONTENTS

The technical training program of TIP it is identical, both in intensity and content, to the one used by professional clubs of the Italian Serie A. Athletes participating in the PR.I.T. develop their technical and tactical abilities through a daily work identical to that established for the professional player.

ANNUAL COURSE

Age: 14-21 years.

DURATION

Talent Identification Program has the duration of 9 months (from September to June) coinciding with the opening and closure of the scholastic and academic year. Players can also attend the same Training Program from 1, 2, 3 and 6 months during the soccer season.

TIP

Talent Identification Program

SCOUTING AND TRIALS

Every week the Academy plays a friendly match to provide to all players the opportunity to be scouted by an Italian professional Club. During the year the Academy offers to players the possibility to train in trail directly with an Italian Club.

TECHNICAL EVALUATION REPORT

Every 3 months the Academy will provide the athletes with personalized reports where the technical and tactical parameters will be evaluated in order to measure effective improvements. Technical and tactical lacking aspects will be identified since the very beginning and the athletes will be given accordingly specific training

REGISTRATION FOR COURSES
